3. Non-Agenda Public Comment

No non-agenda public comments were made.

4. Management and Committee Member Communications

a. Taxicab Permit Figures - Kenneth Nelson, Taxicab Administration Manager

Mr. Nelson presented preliminary year to date permit status figures for taxi, and other for hire vehicles. The memo containing current permit figures is included in the final meeting packet.

b. Approved Soft Meter technology and Devices - Kenneth Nelson

Mr. Nelson presented information on approved soft meter technology/devices per California Department of Food and Agriculture, Division of Weights and Measures. The Certificate of Conformance, diagrams and descriptions of the standard features and options for each approved device is included in the final meeting packet. He stated that although there are other companies who are working to get their software approved, no other software is currently accepted.

c. Revisions to Radio Service Dispatch Instructions and Form 570.50 - Kenneth Nelson

Mr. Nelson presented, and reviewed, changes to the existing procedure for a Radio Service Organization change as well as to the Radio Dispatch Service Organization Form 570.50. The revised Radio Service Instructions and updated Form 570.50 are included in the final packet. Mr. Nelson explained that the procedure and form has been updated to address any perceived bias, or more favorable treatment, from MTS towards either Radio Service Organizations, or Permit Holders. This change was also implemented to help address the issue of dispatch equipment not being returned to the Radio Service Provider before a Permit Holder switches to another Radio Service. Additionally, the change was made to allow Permit Holders to change companies should the present Radio Service Provider refuse to provide sign off for such service change. The implementation of a 30-day wait period for Radio Service change, where the current provider has yet to "sign off" on the change, will allow both parties time to settle any outstanding equipment, or account issues. He clarified that if the permit holder obtains signature for change from the current Radio Service Organization, then the permit holder may switch radio service effective immediately upon completion of all other outlined Taxi Administration policy requirements noted on updated Form 570.50. Mr. Tasem requested further clarification using the example of a Permit Holder wanting to leave Company "A", to switch to Company "B" while still owing \$10,000 to Company "A". Mr. Tasem asked what will happen in the event of outstanding financial disputes at the end of the 30 days. Mr. Nelson explained that at the end of that 30 day period, the permit holder would still be allowed to switch Radio Service Organizations regardless of "sign off". Mr. Tasem asked should there be a dispute, and the current Radio Service Company would not "sign off" on the transfer, would the permit holder still be able to work during the 30 day waiting period. Mr. Nelson explained that the permit holder would be allowed to work as long as they still have Radio Service. Mr. Nelson said that the 30 day wait period is only intended to allow time for both party's to mediate if needed; should there still be outstanding issues between the parties at the end of this time period, then the same legal recourse that is afforded to any other business may be pursued. Ms. Tanguay shared that this has been a problem for many years in the past and wanted to know if the driver would still be able to use existing equipment and service during the 30 day wait period. Mr. Nelson reiterated that, per MTS Legal Department, the Taxicab Administration's position is as a Regulatory Agency, not one of legal enforcement, to settle civil disputes, nor to provide mediation between the two parties. Ms. Tanguay stated she agrees with the procedures but believes if the radio service discontinues radio service before the 30 days the permit holders and drivers may be left without any radio service for that time period and not able to work. Mr. Banks asked if MTS could enforce the return of equipment to the Radio Service Organization; Mr. Nelson reiterated that, MTS will not be getting involved in civil disputes between the Radio Service and Permit Holder. For clarity, Mr. Palmeri summarized the new procedure and Mr. Nelson confirmed that his understanding is correct.

d. Taxicab Committee Advisory Board Driver Representative Vacancy - Kenneth Nelson

Mr. Nelson discussed the current TAC Advisory Board vacancy and presented possible options to fill the seat. He reviewed the previous recommendation to appoint a Lease Driver Representative at the April 4, 2018 Workshop on Regulatory Meetings (WORM).

Due to lack of quorum at April 4, 2018 meeting, no appointment was made. As lack of quorum at WORM has occurred for the last three meetings, Mr. Nelson suggested that the committee either try again to make an appointment at the next WORM, or to leave current seat vacant until 2019 elections. Chairperson Zapf asked the committee members for feedback; Mr. Tasem and Mr. Hueso suggested leaving the seat open until 2019 elections, and all committee members were in agreeance. As this item was only informational, no motion was required.

e. MTS Driver Safety Training - Kenneth Nelson

Mr. Nelson gave a verbal report on the MTS Driver Safety Training and reviewed Driver Representative recommendations. Committee member George Banks provided a handout detailing his recommendations, the handout is included in the final packet.

Mr. Palmeri said he disagreed with some of the speakers comments. He noted that with the help of TAC Board members there have been many beneficial changes, such as the insurance mandatory coverage limits being reduced. He said that he thinks training every two years is needed for a few reasons. He shared that for companies that may bid for contracts, being able to say that your drivers complete the MTS Safety Training every two years is a benefit. He said that due to employment regulations they, as Owners or Contractors, are not able to require drivers to come in for training but MTS is able to perform the training. Mr. Palmeri suggested that content, or curricula, could be reviewed and discussed at WORM but feels that to do away with the training all together would not be good for the industry.

Mr. Seifu spoke of a driver petition to remove the MTS Safety Training as it is not helping the drivers, or the industry. He said that TMC's have been taking over a lot of business and they only require a video to be watched. He said most drivers have been driving for five, ten or more years and that he thinks it is a waste of time for experienced drivers to review items such as how to read a map, blue code lights and how to use a meter. He said most drivers are fed up with this issue and do not like that they have to sign up, go to a class and pay money. Mr. Seifu said he spoke to a driver who just attended the training and asked what he learned, the driver told him he didn't even remember, and he just took the training because that is what is required to renew his Sherriff's License. Mr. Seifu would like some thought to be given as to why the training is really required, not just because of MTS politics. Mr. Seifu said that this also may be an opportunity to further empower the Radio Service Organizations by allowing them to provide the training to drivers.

Mr. Banks said that he has talked to new drivers at the Airport who have inquired as to where MTS office is as they want to know about Ordinance 11. He stated that he tells drivers this is not something they can learn in just a few minutes and for this reason he thinks the class is very important. He said that he also thinks the class is not only very important for new drivers, but for experienced drivers to attend every two years as well. He said that the biggest complaint he has heard from drivers is about the expense and he suggests that the fee be lowered to 10.00. He said that it is very important that the drivers know the rules to help avoid penalties, possible ticketing and just to learn about the industry in general. Mr. Banks talked about his attendance at the training the day prior to the TAC Meeting and thinks that many people do not understand the information

that can be obtained by attending the training. He said new drivers would have no way of knowing many things, such as what to do in the event of a safety matter or danger, without going to the training. He would also like to see some additional information regarding airport issues, such as fare refusal and GPS navigation. He said that he found the class to be very helpful and feels it should remain.

Mr. Tasem shared that approximately a year ago Mr. Fewell, Interim Taxicab Administration Manager, asked for help with the drivers training program. Mr. Tasem said he provided an outline, training program, classroom layout and volunteered to run the class. He said that the training that is given now is the same training that was given at Foundation College, with the exception of there being 40 questions instead of 10 or 20. Mr. Tasem states that the training being given has been the same for 20 years and he was under the impression that the MTS training would be different from the prior training. He states that the training he prepared had information regarding three aspects of taxi driving service: customer service, locations, and dispatch communications. The prior training was 5.00, and now costs 30.00. He said that he does understand that there are expenses involved but he thinks the training needs to change from the existing format. Mr. Tasem said that he thinks the current training needs to include more on customer service and things that happen in the field. He said that the drivers do need to learn how to provide much better customer service and this can only come through additional training.

Ms. Tanguay spoke of experience as a Continuing Education Committee Chair and about the many different of industries that require routine continuing education. She shared that the original trainings were started to inform drivers, and that the safety trainings were started due to drivers being killed. Ms. Tanguay feels that one problem is that new drivers are not coming in, and as professionals, owners and drivers need to educate themselves on basic laws, new amendments, regulation updates and vehicle changes. She agreed with prior speakers that \$30.00 may be high, but realizes there are costs; she noted that Sherriff's renewals did go down this year. She noted the importance of communication and continued education for the professional taxi industry. She said she does feel that some aspects of the class could be modified but it is very important to keep. Ms. Tanguay asked if the training could include more information regarding the some of the airport issues so drivers can be more informed of Airport Regulations. Ms. Tanguay said that she thinks there has been an increase in reckless driving, possibly due to increased marijuana usage. This is one reason she believes that the training continues to be very important and asked that all members bring their ideas together at the next WORM.

Mr. Hueso made the point that guiding principles are important in every industry. He said that one programs value is the engagement with drivers. He said in prior times there has not been open lines of communication between regulators and drivers, and he feels this has changed and is very important. He also noted that the prior training was a video and didn't allow for any kind of continued dialogue. He thinks that the current training requirement, with consideration to cost and time, is very little in comparison to what is being gained. He said the current training allows the drivers more information and better industry engagement, which then allows for better public service. Mr. Hueso noted that he did attend the training and was able to directly observe the engagement aspect of the

training between the drivers and trainers. He also acknowledged that both Mr. Nelson and Mr. Fewell have supported making changes and updates to the training as needed.

Mr. Abraham shared that he has been talking to many drivers over the past week and doesn't feel the current class adds anything. Previously it was easy to attend the class and now drivers have to sign up and if their Sheriff's ID's is already expired they are losing the opportunity to make money. He said that he has taken the class every two years and doesn't feel that it has helped him at all. Mr. Abraham said that Permit Owners and Radio Services are engaged with the drivers and providing training to them in customer service and other areas, on a daily basis. He would like to see the training made easier to attend in both time and money.

Mr. Nelson talked about some purposes of the class, including Board Regulation requirements, as well as possible expense impact with items such as insurance costs. He shared his personal experience of his two cab rides the week before. There were no issues with the ride, or driver, on the first trip; however, there were several issues with the second ride. Although Mr. Nelson stated the driver was very courteous, he said he did have the expectation that the driver would have noted his destination of the Taxicab Administration Office and would be on his best behavior. He said in the short ride this very experienced driver conducted an appalling number of vehicle code violations. Mr. Nelson said this shows that the training is still needed as there are continued complaints on very basic issues, such as driving and customer service. Mr. Nelson also shared that he recently witnessed a taxi driver, with passengers in the cab, make a dangerous, illegal U turn in front of the vehicle that he and Mr. Fewell were riding in. This driver was reported to the company. He noted that these are the types of issues continuing to happen with "experienced" drivers. Mr. Nelson said that if the Driver Training can be improved he is open to suggestions, including reviewing the information Mr. Tasem provided to Mr. Fewell. He explained that the prior training was provided by a third party contractor at the cost of \$65,000 per year, and when MTS provides training, it is on a full cost recovery basis. The training fee charged covers such items as classroom and technology fees, MTS staff salary and other expenses. Any overages that are collected from the training go into the MTS reserve fund; these funds may be used to try and help offset other potential increases, such as regulatory fees. A large portion of the reserve funds were used to offset regulatory fees for one year, and this directly impacted the ability to offset other industry costs. Mr. Nelson noted that the current class is approximately fifty minutes of lecture in addition to the time needed to complete the test; he doesn't feel this is an exorbitant amount of time spent for training every other year. Mr. Nelson related that he often hears comparison to what Lyft and Uber are required to do; he explained that the goal of Taxi is to make themselves better than Lyft or Uber. He stated that this can be attained by better customer service, safer driving and continued training. Mr. Nelson reminded committee members that the WORM is the place to review such issues as improving the existing training class and encouraged all to attend.

Chairperson Zapf acknowledged the frustration of ongoing training as she frequently is required to complete continued trainings. She said her experience is that occasionally she may get answers incorrect and related this to the necessity, and importance, of continued training in order to keep abreast of different changes in laws, rules and regulations.

Public Comment

Abebe Antallo – Mr. Antallo, a representative of United Taxi Workers of San Diego, first expressed his appreciation Mr. Nelson's work on behalf of taxi drivers. He stated that MTS is now a friendly institution to drivers. Mr. Antallo would like to see more equal representation of Lease Drivers on the TAC. He shared that he has talked to a lot of drivers who are complaining about the MTS Drivers Training. The majority of drivers who are attending this training are veterans of the taxi business who have been driving for an average of 10 to 15 years and they are not gaining any additional knowledge. Mr. Antallo said that most drivers are already struggling due to Uber and less business and they do not have the time or money to spend at training. He would like to see the training for established drivers disregarded. He does agree that the training is acceptable for new drivers who do not yet have the field experience.

Barkzai Najibullah – Mr. Najibullah said that he has been a taxi driver throughout San Diego and at the San Diego Airport since 1977. He stated that in the past they would take the safety training but he has not seen anything new, or any changes, in the past 12 years. He has worked for many different corporations and locations and learned about one regulatory change in the first five years only. Mr. Najibullah stated that he does not understand why time is being wasted on safety classes when nothing changes from each year they have training. He stated that drivers are really struggling and have lost so much business to Uber and they have very little regulation, or training, in comparison to taxi drivers. He shared that as a Taxi driver there is already a lot of burden and business expense and he would like to see change in the Safety Training requirements for this reason. He said he does agree that first, and second, year drivers should continue take it more frequently.

5. Adoption of Taxicab Rates of Fare-Airport/Cities - Kenneth Nelson

Mr. Nelson said a study was conducted on rates of fare to determine both the maximum and minimum rates of fare. The maximum rate remained the same but there was a change in the minimum rate. Ms. Tanguay said that are a lot of drivers who want to lower the rates. She has seen both very low rates for Uber/Lyft and high rates for the same fare from taxis-as well as low rates for taxi and higher for Uber/Lyft. She said there big problems with the rates. Due to the competitive nature of the rates, she has tried to cut her rates down from the meter when possible and would like to see Airport Drivers and other drivers to do the same.

Action Taken

Mr. Tasem moved to keep the current rates until January 1, 2019 when AB 1069 goes into effect. Mr. Palmeri seconded the motion, and the vote was 9 to 0 in favor with Mr. Nichols, Mr. Chasteen, Mr. Majid, Mr. Mayekawa, Ms. Mercer, Mr. Terzi and Mr. Weldegiorgis absent, 1 Taxicab Lease Driver seat vacant and no one abstaining. Action would forward a recommendation to the MTS Board of Directors to maintain the current 2017 rates of fare for both Airport Originated Trips and Non-Airport Originated Trips for the remainder of 2018.

MEETING OF THE SAN DIEGO METROPOLITAN TRANSIT SYSTEM TAXICAB ADVISORY COMMITTEE

SEPTEMBER 13, 2018

SUBJECT:

REVISIONS TO SAN DIEGO METROPOLITAN TRANSIT SYSTEM (MTS)
ORDINANCE NO. 11, PROVIDING FOR THE LICENSING AND REGULATION OF
TRANSPORTATION SERVICES WITHIN THE CITY BY THE ADOPTION OF A
UNIFORM PARATRANSIT ORDINANCE

RECOMMENDATION:

That the MTS Board of Directors:

- 1) Adopt the proposed amendments to MTS Ordinance No. 11, an Ordinance Providing for the Licensing and the Regulating of Transportation Services within the City by the adoption of a Uniform Paratransit Ordinance (Attachment A);
- 2) Direct publication of a summary of the amendments to MTS Ordinance No. 11; and
- 3) Upon adoption of the proposed amendments, authorize the Chief Executive Officer the discretion to enforce MTS Ordinance No. 11 in its amended form.

Budget Impact

None with this action.

DISCUSSION:

Effective January 1, 2019, Assembly Bill No. 1069 ("AB 1069") makes various changes to the regulation of taxicab transportation services.

In order to be in compliance with AB 1069, certain revisions to MTS Ordinance No. 11 are necessary. MTS Ordinance No. 11 provides for the licensing and regulating of transportation services.

MTS Ordinance No. 11, Section 1.1 (d), (g)

Currently MTS Ordinance No. 11 lists the following Cities to be under a contractual agreement with MTS for the licensing and regulation of transportation services: Cities of El Cajon, Imperial Beach, La Mesa, Lemon grove, National City, Poway, San Diego and Santee. The proposed revisions would add City of Chula Vista and the unincorporated areas of County of San Diego located within MTS's service area. The County of San Diego at this time has only agreed for MTS to regulate and enforce taxicab transportation services and not other for-hire vehicle services.

MTS Ordinance No. 11, Section 1.1 (hh), (ii)(4), 1.3 (a)(1), and 1.4 (c)

The proposed revisions would add the definition of substantially located. A taxicab must be substantially located within Chula Vista, El Cajon, Imperial Beach, La Mesa, Lemon grove, National City, Poway, San Diego, Santee or the unincorporated areas of the County of San Diego located within MTS's service area in order for MTS to regulate. Substantially located means either where the primary business address of the taxicab permit holder and/or the jurisdiction within San Diego County in which originating trips account for the largest share of that taxicab permit holder's total number of trips within San Diego County. The proposed revisions would also update the definition of a taxicab to require that it be substantially located within one of the above listed jurisdictions and that it carry not more than eight (8) passengers excluding the driver.

MTS Ordinance No. 11, Section 1.1 (jj), 1.8 (f)(4), and 2.2 (e)(2)

The proposed revisions update the definition of taximeter to clarify taximeters can be either a hard meter or a soft meter. A hard meter has a prefixed fare with an external seal approved by the County of San Diego Agriculture, Weights and Measures and mileage is calculated based on distance and time. A soft meter is smartphone or tablet that uses GPS or other on-board diagnostics approved by the California Department of Food and Agriculture Division of Measurement Standards to calculate distance and rates.

MTS Ordinance No. 11, Section 1.3 (a)(8), and 2.2 (c), (i), (j)

Currently all permit applicants must provide rates of fare proposed to be charged for vehicle for-hire services within their application. The proposed revisions would exclude this requirement for taxicab permit applicants since AB 1069 now allows the taxicab permit holder or driver to charge any rate of fare or flat fee so long as it does not exceed the maximum rate of fare adopted by MTS.

MTS Ordinance No. 11, Section 1.3 (a)(9)

Currently all permit applicants must provide a description of their proposed vehicle color scheme or insignia within their application. With the changes adopted in December 2017, MTS no longer regulates a vehicle's proposed color scheme or insignia. Thus, the proposed revisions would remove this permit application requirement.

MTS Ordinance No. 11, Section 1.8 (o), 1.13 (a)(7), 2.2 (d), and 2.4 (w)

MTS Ordinance No. 11 Section 1.8 (o) currently requires that rates of fare charged for a for-hire vehicle shall be clearly displayed. The proposed revisions would only require that the maximum rates of fare be clearly and conspicuously displayed in the interior of the for-hire vehicles other than taxicabs. Per AB 1069, taxicabs may disclose fares to its passengers, by such methods as website, mobile phone application or telephone orders and may post fares on the exterior of the vehicle, on a mobile application or be clearly visible in print or electronic form within the taxicab.

MTS Ordinance No. 11, Section 1.8 (aa) - (ff)

These operating provisions (i.e. no smoking within the vehicle, cannot use abusive language towards passengers, driver can refuse a fare if it is readily apparent it will cause harm to driver, and cannot park near a fire plug or within a disabled parking zone) were moved from Section 2.4 ("Operating Regulations" for Taxicabs and Low Speed Vehicles (LSV)) to Section 1.8 ("Equipment and Operating Regulations") since they were not specific to only taxicabs and LSV, but applied to all for-hire vehicles. In addition, the proposed revisions update the non-discrimination provision to be consistent with how defined in AB 1069.

MTS Ordinance No. 11, Section 1.10 (f)

The proposed revisions would remove the requirement that a permit holder must appear in person to apply for a permit. It is sufficient that a permit application be emailed, mailed or submitted in person.

MTS Ordinance No. 11, Section 1.12 (e)

MTS Ordinance No. 11, Section 1.12 (e) requires every person who operates a for-hire vehicle to successfully complete an MTS approved driver safety training course. The proposed revisions would add the Americans with Disabilities Act (ADA) compliance component be included within the training course, in compliance with AB 1069. MTS currently mandates that all drivers of MTS regulated vehicles attend and pass a driver's safety course once every two years. The class addresses issues that include: driver and vehicle safety, customer service, Ordinance No. 11 provisions and ADA requirements.

MTS Ordinance No. 11, Section 2.2 (b)

Currently, it is required that taxicab trips from San Diego International Airport shall be charged at a uniform rate of fare with an additional Airport Trip Fee as applicable. AB 1069 now allows taxicabs to charge any rate of fare or flat fee so long as no more than the maximum rate of fare adopted by MTS, notwithstanding any additional Airport Trip Fee. The proposed revisions clarify this change.

MTS Ordinance No. 11, Section 2.4 (o)(3)

Since AB 1069 will require at the time of annual renewal that taxicab permit holder or drivers provide the last years' worth of trip log data to substantiate where they are substantially located, the proposed revision would add the requirement to maintain trip log data for at least 18 months. The proposed retention time frame will allow MTS enough time to collect, review and verify the required data without fear the data is no longer maintained.

MTS Ordinance No. 11, Section 2.4

Proposed revisions would remove the requirement that permit holders for taxicabs and LSV: have a color scheme that conforms to the dispatch service, since this requirement was removed in December 2017; maintain a business office that is available to the public, since most taxi companies are individual permit holders who operate out of their homes and the cost of maintaining a physical business office would be too burdensome and outside of current industry standards; file with MTS the rate of fare to be charged, since this is duplicative of what is already discussed and required in Section 1.3 (a)(8); and maintain a lease agreement and receipts of payments from lessee, since lease agreements between a permit holder and lessee is a private contract matter that does not involve MTS.

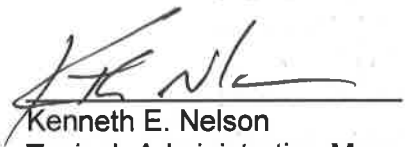

MTS Ordinance No. 11, Section 2.8

The proposed revisions would add a section relating to prearranged trips by taxicabs. Per AB 1069, once a taxicab is found to be substantially located within at least one jurisdiction within San Diego County, they can conduct prearranged trips anywhere within San Diego County without having to apply for a taxicab permit or business license within that particular jurisdiction. For instance, a MTS taxicab permit holder can now conduct a prearranged trip in Oceanside without having to apply for a separate taxicab permit or business license with the City of Oceanside. Likewise, a taxicab found to be substantially located in Oceanside would only need to get a taxicab permit and business license with the City of Oceanside. Such a taxicab would not be required to apply for a taxicab permit or business license with MTS if they conducted a prearranged trip within the City of San Diego. Nonetheless, AB 1069 does allow MTS Taxicab Administration the authority to enforce public health, safety or welfare measures on taxicabs operating within MTS's jurisdiction, regardless if they are not considered substantially located here. MTS Taxicab Administration will be discussing with WORM which provisions should apply for taxicabs operating a prearranged trip in MTS's jurisdiction.

MTS Ordinance No. 11, Various Sections throughout MTS Ordinance No. 11

In December 2017, MTS removed the requirement that LSV must have a dispatch service in order to operate. Currently, only taxicabs must subscribe to a dispatch service. The proposed revisions clarify this change.

All other proposed revisions to MTS Ordinance No. 11 that are not described here are minor and non-substantive.
