Ms. Bishop responded by saying that marketing will compile a final list of projects to be presented to the board which will then decide if MTS will move forward with the ballot measure.

Mr. Washburn asked if there is a signature collection process to get the measure on the ballot. Ms. Bishop responded by saying that MTS was given authority to put the measure on the ballot by an assembly bill but wasn't sure about a signature collection process.

8. Committee Member Communications/Comments

Ms. Ornelas asked why the front signage on the trolley cars no longer have the icons listed for each line. She also said that on stations with multiple lines, operators are not making announcements of which trolley is approaching. She also noted that visually impaired passengers have a hard time distinguishing if a trolley is coming towards them when the cars have been wrapped. Ms. Ornelas stated that bus drivers are not pulling close enough to the curb when pulling into stops. She also said that some drivers at City College are not stopping at the designated spaces.

Mr. Rivas noted he is happy that part of the tax measure would be going towards funding extra security. He stated there needs to be more security present at trolley stations.

Ms. Ornelas noted she would like security to be stepped up between 2:30pm and 4:30pm at the City College Station due to the number of students getting out of class at that time. She noted students are stepping on passengers walking canes.

Ms. Lucero asked if drivers are required to make manual announcements if the automatic announcements are not working. Ms. Washburn responded by saying that

yes, drivers are required to make manual announcements. Mr. Doogan noted the same was true for trolley operators, however, they may not always be aware the announcements don't work in other cars so passengers would need to notify them.

Ms. Anderson asked how passengers should let trolley operators know that the announcements are not working in a particular car. Mr. Doogan noted that in each car there is an intercom which can be used to communicate with the operator; passengers can also go to front of the car by the window and let the operator know; and passengers are also able to text the See Something, Say Something numbers which will go straight to operations.

Ms. Ornelas stated that sometimes when the announcements don't work on the bus, she mentions it to the drivers and they start working again.

19. Adjourn  
Mr. Washburn adjourned the meeting at 1:29pm.
