Committee Comment

Committee Member David Marino stated that cognitive functional assessments are usually done by a licensed psychologist. He asked if the interviewer held the certification necessary to make that decision. Mr. Posejpal informed David that the agency's cognitive functional assessment determines the ability to use fixed route services or paratransit services. Mr. Posejpal elaborated that the agency wanted to build a more in-depth functional assessment.

Committee member Todd Lordson noted that in the past, they had a good working relationship with First Transit to do subscription rides, but in the past couple of years, that has been lost. Mr. Posejpal offered to connect him with the General Manager of Transdev to address those concerns.

Chair George Gastil was glad to hear the morale was good with First Transit. He noted that they should be mindful that morale is incredibly important.

Committee Member David Marino wanted to know if it was possible to expand the subscription services definition. Mr. Posejpal stated that as long as their trip qualified for paratransit services it is something the agency could investigate.

SUBJECT:

Capital Projects Update (Heather Furey)

INFORMATIONAL ONLY

Budget Impact

None with this item.

DISCUSSION:

Staff will provide an update on the following capital projects currently underway for MTS:

Bus Stop Upgrades: This is an on-going project to incrementally make improvements to accessibility and amenities at MTS's bus stops, with a focus on investing in disadvantaged communities. Eight (8) bus stops improvement plans are permitted, and construction is expected to occur in the first half of 2025.

VMS Sign Upgrades: This project replaces the existing Variable Message Signs (VMS) at the Orange, Green and Blue Line Trolley stations. The new signs will be full color display and will match the signs installed with the Mid-Coast Extension. The project is funded by state and federal grants. The Orange Line VMS signs will be installed in the first half of 2025. The Blue and Green line signs will be installed in 2026.

PA System Upgrade: This project replaces the existing Public Address (PA) system at the Orange, Green and Blue Line trolley stations. The PA system will mimic the system installed with the Mid-Coast Extension. Design for the system upgrade is expected to start in Spring 2025.

America Plaza/Santa Fe Depot Pedestrian Enhancement Project: The goals of this project are to improve the experience of pedestrians and MTS riders utilizing the Santa Fe Depot and America Plaza Trolley Stations. It will include pedestrian improvements along Kettner Blvd and is funded by a state grant. Construction is expected to start in early 2025.

Orange Line Pedestrian Crossing Improvements: As part of a larger project to improve speed and safety along the Orange Line, three (3) pedestrian grade crossings will be reconstructed to improve pedestrian accessibility and increase safety. Construction is expected to start in summer 2025.

12th and Imperial Transit Center Rehabilitation: The 12th and Imperial Transit Center project will expand the bus transit center at 1255 Imperial Avenue, San Diego into the adjacent “triangle lots” and the street right of way at 13th Street and National Avenue. The project will increase the number of bus bays at MTS’s busiest transit center, incorporate multi-modal hub components, improve passenger amenities, and create a parcel for a Transit Oriented Development (TOD) Project. The project is currently in design and construction is anticipated to start in the Summer of 2026.

Washington Street Wall Modifications: In mid-2024, the existing wall at the Washington Street Trolley station was modified to improve the line of sight for pedestrians at the Washington Street Trolley station.

MEETING OF THE SAN DIEGO METROPOLITAN TRANSIT SYSTEM ACCESSIBLE SERVICES ADVISORY COMMITTEE (ASAC)

December 19, 2024

SUBJECT:

Old Town Transit Center Wayfinding Sign Upgrade Project (Quincy Forward)

INFORMATIONAL ONLY

Budget Impact

None with this item.

DISCUSSION:

The Old Town Transit Center (OTTC) is a regional mobility hub that connects numerous transit services including: MTS fixed-route buses, MTS Trolleys, MTS Access, NCTD COASTER, AMTRAK Pacific Surfliner, San Diego Flyer airport shuttle, taxi/TNCs, and UC San Diego buses. In addition to frequent transit riders, OTTC is also used as a park and ride location for people attending special events downtown, the Old Town State Park and elsewhere. This brings a large number of riders who may not be familiar with the transit services provided and will rely on wayfinding signs to get to the correct location.

This proposed project will replace wayfinding and informational signs at the OTTC to enhance clarity, ADA accessibility, social equity, passenger safety, and customer experience. The OTTC was built in 1995, and much of the signage dates from that era, making it more than 25 years old. MTS completed the OTTC modernization project in September 2021, which made many physical improvements to the western side of the transit center to increase capacity and modernize amenities. However, that project did not include a comprehensive review and replacement of the original OTTC signage. This project will improve signage to match the physical improvements of the modernization project.

Staff will be presenting the new wayfinding sign concepts and welcomes ASAC to provide input and suggestions.

Dear Access Customer:

To ensure the safety of our passengers and the integrity of MTS' complementary paratransit service, MTS has decided to discontinue our current "Do Not Leave Alone (DLA)" practice. Beginning January 1, 2025, we will no longer offer this "attendant type service" to new Access customers. For approved, eligible Access customers before January 1, 2025, we will continue to provide the DLA service for the remainder of calendar year 2025. On January 1, 2026, the DLA service will be discontinued entirely.

We strongly encourage any passenger affected by this change to identify someone who can serve as their Personal Care Attendant (PCA) for Access trips. Any MTS Access passenger may travel with a PCA. A PCA typically assists with one (1) or more daily life activities, such as providing personal care, performing manual tasks, or providing assistance with mobility or communication. A PCA may ride with you free of charge. While a PCA may travel without paying a fare, at least one (1) passenger must always pay a full fare. Two (2) passengers cannot claim each other as PCA to avoid fare payment.

We welcome feedback regarding this change and will work with our passengers to ensure the smoothest transition possible. If you have any questions or concerns, please feel free to reach out to me via e-mail at Charles.Posejpal@sdmts.com.

/S/ Charles Posejpal
