Agenda

MEETING OF THE SAN DIEGO METROPOLITAN TRANSIT SYSTEM ACCESSIBLE SERVICES ADVISORY COMMITTEE

Thursday, June 14, 2018
1:00 p.m. – 2:30 p.m.

James R. Mills Building
Board Meeting Room, 10th Floor
1255 Imperial Avenue, San Diego

To request the agenda in an alternative format or request accommodations to facilitate meeting participation, please contact Vassilena Lerinska (619.595.7038) at least five (5) working days prior to the meeting. Assistive Listening Devices (ALDs) are available from the Clerk of the Committee prior to the meeting and are to be returned at the end of the meeting.

<u>Item</u>	<u>Recommended Action</u>
1. <u>Pledge of Allegiance</u>	
2. <u>Roll Call</u>	
3. <u>Approve March 8, 2018 Meeting Minutes</u>	Approve
4. <u>Public Comment</u> ➤ <i>Public comments are limited to 3 minutes per person.</i>	Informational
5. <u>Member Comment</u>	Informational
6. <u>Fare Study Report (Sharon Cooney)</u> - Receive a report on the Fare Study	Informational

7. Transit Training Update (Callie Johnson) Informational
- Receive an update on the progress of the Transit Training program
8. [MTS Access Taxi Pilot Program \(Jay Washburn\)](#) Informational
- Receive an overview on the Taxi Pilot Program
9. [Medi-Cal Notification \(Jay Washburn\)](#) Informational
- Receive an overview on Medi-Cal changes regarding transportation
10. Appointment Based Scheduling (Jay Washburn) Informational
- Update on the progress of appointment based scheduling
11. ADA Paratransit Reports Informational
- Operators
 - [MTS Access \(DeRees Clark\)](#)
 - Certification
 - [MTM \(Callie Johnson\)](#)
12. Fixed-Route Reports Informational
- Operators
 - [MTS Bus \(Belinda Fragger\)](#)
 - [MTS Contract Services, Transdev \(Bill Lewis\)](#)
 - [San Diego Trolley, Inc. \(Tom Doogan\)](#)
13. Next Meeting Date: **September 20, 2018 at 1:00pm**
14. Adjournment

MTS ACCESSIBLE SERVICES ADVISORY COMMITTEE
DRAFT MEETING MINUTES
Thursday, March 8, 2018
1:00 p.m. – 2:30 p.m.

James R. Mills Building
Board Meeting Room, 10th Floor
1255 Imperial Avenue, San Diego CA 92101

[Clerk's note: Except where noted, public, staff and board member comments are paraphrased].

1. Call to Order and Roll Call

Chairwoman Bragg called the meeting to order at 1:00 p.m. A roll call sheet listing the committee members in attendance is included (see Attachment A).

2. Pledge of Allegiance

Members of the committee and members of the public were given the option to participate in the Pledge of Allegiance.

3. Approval of December 14th, 2017 Meeting Minutes

Chairwoman Bragg entertained a motion to approve the December 14th, 2017 meeting minutes.

Mr. Floyd Willis inquired about Mr. Rivas' question under item 10 and asked if the wait time is not multiplied by each person in the queue. Mr. Jay Washburn responded by saying that the wait time given to a caller is their wait time depending on where they are in the queue.

Mr. Floyd Willis moved to approve the minutes. Mr. Tom Doogan seconded the motion, and the vote was 13 to 0 in favor with Mr. Albarran and Ms. Radtke absent.

4. Public Comment

Deb McKissack - Ms. McKissack commented on issues with MTS Access service. She stated that there have been some issues with the service recently. Ms. McKissack noted that her mother was returned to her home almost two hours later after she was picked up. She stated that there are people that ride MTS Access that are elderly and disabled. She commented that these people have restroom issues, medication issues and there needs to be timely travel for these passengers.

5. Member Comment

Mr. Washburn commented on the dockless bikes and scooters in San Diego. He noted that a lot of them have been left at our transit centers and bus stops which have been obstructing access. Mr. Washburn noted that riders should call MTS customer service so that we can contact the vendors to remove the bikes and scooters from any bus stop or transit center.

Chairwoman Bragg noted that the Operations Manager for Lime Bike gave a presentation at the Imperial Beach meeting last night. She stated she commented on the litter of bikes and scooters at certain trolley stations and that they are impeding mobility devices. She urged the representative to focus on the issue.

6. RTMS Overview (Devin Braun)

Mr. Devin Braun, Manager of Transportation Communication and Technology, provided an overview on the RTMS system. He noted that MTS and NCTD both use the system on the fixed route buses, supervisor vehicles and radio rooms. He explained that in 2015, the system was added to the South Bay and East County Divisions and two weeks ago, Copley Park was the last division to have the system installed. He explained the system helps MTS manager the day to day operation. He noted that MTS is able to track where the buses are, look at and add specific routes, count how many passengers are boarding and deboarding, and provide automatic announcements for stops. Mr. Washburn asked Mr. Braun to elaborate on the one bus away app. Mr. Braun explained that the one bus away app shows you where buses for all routes are in real time, lets you know when a bus is set to arrive and if it is late. He explained that the app is free and all fixed route buses are now on the app.

Mr. Jorge Rivas asked if the automatic passenger counters can distinguish if a rider is boarding or deboarding either from the front or back. Mr. Braun responded by saying yes. Mr. Rivas asked how the system can be changed to announce all stop. Mr. Braun responded by saying that that would be a policy that would have to made. He explained the system can announce any stop that MTS wants and noted that any specific stop can also be added if requested. Ms. Audrey Porcella asked Mr. Braun to clarify the federal mandate regarding bus stop announcement. Mr. Braun explained that the first stop after a turn, a signalized intersection, major route transfer point and other interesting points on interest must be announced. Mr. Willis asked what the threshold is for running late. Mr. Braun said it is two minutes.

Chairwoman Bragg thanked Mr. Braun for his presentation. She encouraged anyone to let Mr. Braun if they would like a certain stop announced.

Ms. Rebbie Radtke agreed with that Mr. Rivas said in regards to having all stop announced. She stated without every stop being announced, the bus system is not fully accessible.

Chairwoman Bragg asked Mr. Braun if the policy would need to go to SSTAC, ASAC and the Board to be approved. He responded by saying that it may not have to be that formal.

7. MTS Access Scheduling/Info Notification Overview (DeRees Clarke)

Mr. DeRees Clarke, General Manager of First Transit, provided an overview on the info notification system for MTS Access. He explained that the system provides reminders in both English and Spanish. He explained reminders are made one day in advance as well as 15 minutes before the bus arrives. Notifications can be made via phone, text or email or any combination of the three. He noted that info notification is used by about 1,700 riders. Mr. Clarke provided an example of what a text message looks like.

Mr. Rivas asked if the 15 minute notification could be changed and why 15 was chosen. Mr. Clarke responded by saying that a change would have to be made system wide and that 15 minutes is ideal for a client to be ready to come out. Mr. Rivas asked if the system can let clients know if the bus is running late. Mr. Clarke responded by saying that currently, the system does not have that capability. Chairwoman Bragg noted that yesterday there was a gas leak which affected a lot of people. She asked how clients would be made aware if their buses were running late. Mr. Clarke explained that dispatch would likely make calls to each affected client but that info notification could not currently do this. Chairwoman Bragg asked if that would be possible in the future and if First Transit was looking at the option. Mr. Clarke responded by saying that they are not currently looking at making any changes to the system but can work with MTS to make changes in the future.

8. Transit Training Update (Callie Johnson)

Ms. Callie Johnson, MTM Project Manager, provided an update on the Transit Training Program. She explained the first class was held earlier in the month at Jewish Family Service. Most participants were from Jewish Family Service and some from the City of La Mesa. Ms. Johnson explained the material the group went over and the discussion that occurred. She explained there was an instruction piece as well as filed training.

Ms. Johnson also provided an overview on the Taking Transit 101 class that took place in February at the Balboa Senior Lounge. She explained there were five attended and that the training was provided by two MTS retired employees.

Lastly, Ms. Johnson explained that MTS met with the ASAC Ad-Hoc Committee on December 14th 2017 and January 31st 2018 to go over the training materials.

Ms. Kalivas asked what the field training consisted of. Ms. Johnson explained that the group talked about accessible features and what to do in order to ride the bus. The training started by a half mile walk to a bus stop and also taking note of the natural barriers that the group came across. The group then rode the bus and took note of the accessible features. Ms. Kalivas asked if the intention is to have field work as part of future trainings. Ms. Johnson responded by saying yes. Mr. Washburn asked if that was the difference between the phase one and phase two/three training. Ms. Johnson responded by saying yes.

Mr. Willis inquired about the training that took place in January. Ms. Johnson responded by saying that that was a phase one training with retired MTS employees. Mr. Willis asked if the average length a passenger would walk to a transit stop is usually $\frac{3}{4}$ of a mile. He also asked if the training in February was also a tier one training. Ms. Johnson responded by saying yes. Mr. Washburn explained that there are two separate components. He explained that the trainings in January and February were put on by the MTS Marketing department. Mr. Washburn explained the training in March was a train the trainer course.

Chairwoman Bragg asked Ms. Johnson where she sees this program going. Ms. Johnson explained that she plans to focus on schools and also increase autonomy across San Diego. Chairwoman Bragg asked about what outreach has been conducted. Ms. Johnson explained currently outreach is mostly done by phone calls. Mr. Washburn explained that MTS is working on reaching out to other organizations.

Chairwoman Bragg asked that if any organization was interested in conducting a transit training course to contact either Mr. Washburn or Ms. Lerinska.

Chairwoman Bragg responded to Mr. Willis' question regarding distance a passenger typically walks to a bus stop. She explained that bus stops are usually 1,200-1,800 feet apart. Mr. Willis explained he was referring to the social aspect and how far a person was willing to walk before they decide they do not walk to ride public transit. Mr. Washburn explained that the $\frac{3}{4}$ of a mile refers to paratransit.

9. ASAC Ad-Hoc Committee Transit Training Update (Amy Kalivas)

Ms. Amy Kalivas explained that the ASAC Ad-Hoc Committee met in January. She explained that MTS provided all of the transit training material for the committee to review and provide feedback. On January 31st, 2018, the committee met again to provide MTS with feedback and suggestions. Mr. Willis noted that there are two groups of audiences this program is trying to reach. One is client's currently riding MTS Access and the other is passengers who are currently not using fixed route. Chairwoman Bragg explained that this program will change as it evolves.

10. Upcoming changes to MTS Access (Jay Washburn)

Mr. Washburn went over the upcoming changes to MTS Access come May 1st, 2018. The first change will be adding appointment based scheduling. Clients will be given a 30 minute window of when they will be dropped off up to the appointment time. After the appointment is booked, the system will determine the pick-up window for the client. The second change is changing the on scene window from three to five minutes. The last change is changing the pick-up window from twenty minutes to thirty minutes. Currently, clients are given a pick-up time and drivers have a twenty minute window in which they can pick up the client and still be considered on-time. Clients will now be given a thirty minute window in which the driver can arrive and still be considered on-time. He also noted that on board time will still remain comparable to fixed route services. Lastly, he explained that there is not definitive date, but that MTS will be incorporating taxi service as part of MTS Access to come clients. He noted more details will be provided in the coming months.

Mr. Rivas asked Mr. Washburn to clarify the first change. Mr. Washburn explained that if someone calls and says they have a 10:00am appointment then MTS will drop them off between 9:30am and 10:00am and the system will also provide a thirty minute pick-up window. Mr. Rivas asked what the system currently does. Mr. Washburn explained that currently the system is pick-up based so we look at what time a client has to be picked up and how long a client can be on the bus for. Ms. Lerinska noted that pick up based scheduling is still available. Clients just now have the option to schedule their trip based on pick up time or appointment time. Mr. Rivas asked if the reservationists will ask clients what time they need to arrive to their destination and they provide them with a pick up time. Mr. Washburn responded by saying that clients have to let the reservationist know if they want to schedule their trip based on pick up or appointment time. If it is appointment time, then the system will work backwards and provide the client with a thirty minute pick up window. Mr. Rivas noted that his biggest concern is being on the bus for too long. Mr. Washburn explained that excessive ride times are something

MTS continues to look at. He explained on-board times are not changing but will remain comparable to fixed route.

Ms. Belinda Fragger explained she appreciates the changes. She asked if the public would be notified. Mr. Washburn responded by saying yes and that the letter will be mailed the day after the SSTAC meeting on March 19th, 2018.

Ms. Kim Rucker asked about return riders and how that would be determined. Mr. Washburn explained the return trip is up to the client to determine.

Ms. Kalivas noted that NCTD riders had some concerns over the training taxi drivers received. She asked MTS to be mindful of those concerns when the program is set up. Mr. Washburn thanked Ms. Kalivas and noted that the scope is currently being finalized. He also explained that First Transit will be subcontracting with the taxi provider and that there are additional training requirements in the RFP.

Ms. Porcella asked how it would be determined if a regular MTS Access bus or taxi cab is sent to a client. Mr. Washburn responded by saying that First Transit will be handling the reservations and that the system will determine the most appropriate mode of transit. He explained the service requirement would remain the same. He also noted that taxi drivers will identify themselves as picking up a client on behalf of MTS.

11. ASAC Membership Guidelines Revisions (Samantha Leslie)

Ms. Samantha Leslie provided an overview on the ASAC Membership Guideline Revisions which were approved by the MTS Board of Directors. Ms. Leslie asked Ms. Lerinska to provide an update on the Behavioral Specialist Member. Ms. Lerinska noted that she has reached out to the County of San Diego to determine who will be the primary and alternate members.

12. Appeals of Rider Suspension Policy (Jay Washburn)

Mr. Washburn provided an overview on the rider suspension process for MTS Access riders. He then explained the current process when a rider appeals their suspension with First Transit. Mr. Washburn explained that MTS has created a formal appeals process for any suspension. He explained that if a client wishes to appeal; the appeal would first go to First Transit and if First Transit does not lift the suspension then the appeal would go to MTS. The MTS appeals board will have the final determination.

13. Seat Belt Policy (Jay Washburn)

Mr. Washburn provided an overview on the new statute that requires passengers in a bus that is equipped with seatbelts to use them starting July 1, 2018. MTS is required to either inform clients verbally of the requirement or post signage. He explained that MTS will be posting signage in the paratransit and minibus buses and also provide some training to bus drivers. He explained that if a bus was pulled over an officer could check the bus to make sure all passengers are using seatbelts. He noted that officers may ticket those passengers who do not utilize the seat belts.

Chairwoman Bragg noted that she supports the new law.

Mr. Rivas noted that he thought it was mandatory that all clients wear seatbelts on MTS Access. Ms. Rucker noted the same thing. Mr. Washburn explained that it is mandatory for wheelchair clients but not ambulatory clients.

14. Best Effort Policy (Jay Washburn)

Mr. Washburn provided an overview on the best effort policy. He explained that there is a misconception that MTS has a no strand policy. He explained that if a client misses their return trip and calls for another trip, First Transit will do their best effort to accommodate the client and pick them up, but that there is no guarantee a vehicle will be sent. He also noted that if a vehicle is sent, there is no guarantee on how quickly it will arrive.

15. ADA Paratransit Reports – Informational Item

MTS Access - Mr. DeRees Clarke presented the MTS Access reports for November 2017, December 2017 and January 2018 (see Attachment B).

MTM – Ms. Callie Johnston presented the MTM certification reports for November 2017, December 2017 and January 2018 (see Attachment C).

16. Fixed-Route Reports - Informational Item

MTS Bus – Ms. Belinda Fragger presented the MTS Bus Ramp Deployment Report for November 2017, December 2017 and January 2018 (see Attachment D).

MTS Contract Services (Transdev) – Mr. Bill Lewis presented the MTS Contract Services Ramp Deployment Report for November 2017, December 2017 and January 2018 (see Attachment E).

San Diego Trolley, Inc. – Mr. Tom Doogan presented the San Diego Trolley Lift Deployment Report for November 2017, December 2017 and January 2018 (see Attachment F).

Mr. Willis asked if ADA certifications are done yearly. Ms. Johnson responded by saying most recertification are done every three years except temporary certifications.

17. Adjourn

Chairwoman Bragg adjourned the meeting at 2:23pm.

Announcement of Update to MTS Access Service Addition of Taxi Cab Service Effective July 1, 2018

As part of MTS' ongoing commitment to best serve the community, MTS is continuously exploring available options to effectively meet the evolving needs of our Access customers using various tools and technologies. As such, MTS Access is launching a pilot program that will utilize taxi cabs to provide select Access trips, on a limited basis. We have worked with several other agencies that have established similar partnerships, and believe that this addition will provide clients a new level of service improving on-time performance, ride times, and customer satisfaction for ALL Access riders.

MTS / Access Taxi Cab Pilot Program

- Beginning around July 1, 2018, MTS will utilize taxi cab service from RideYellow to provide some Access trips for select, qualifying Access client trips.
- The use of a taxi for an Access customer's trip cannot be requested by the customer. Instead, the determination of whether a customer's trip will be transported by either an Access vehicle or a taxi will be made by MTS. All service and reservation requests will continue to be made through MTS Access Reservations by calling 1-888-517-9627.
- If your Access trip is being provided by RideYellow cab instead of with an Access bus, you will be notified by phone prior to the taxi's arrival. Access staff will advise you if a taxi will be providing the trip for you that day.
- The taxi cab driver will notify you upon arrival that he/she is there to provide your Access trip. You will pay the driver the same \$4.50 one-way fare, in cash or by voucher, just like you would if an Access bus was there for your trip. **(Never pay the driver more than the standard fare).**
- All participating RideYellow drivers are receiving additional training to prepare to provide service to Access clients, including training pertaining to safety, customer service, assisting clients with special needs, and MTS procedures. Additionally, RideYellow drivers will be held to the same quality service standards as MTS Access drivers, and MTS will closely monitor performance and adherence to these standards throughout the pilot.
- Your Access trip with a taxi will be the same quality of trip as on an Access bus -- all service parameters regarding ride time, pick-up windows, pre-arrival calls, curb-to-curb or door-to-door, and appointment times will be the same for taxi service as they are for Access buses.

During the twelve (12) month pilot, MTS will evaluate the effectiveness of the program to determine if it should be continued. As always, your patience and assistance while we conduct this pilot is greatly appreciated. If you have questions or concerns, please call 619-238-0100 and ask for MTS Access Management.

Sincerely,
San Diego Metropolitan Transit System

May 29, 2018

Attention MTS Access Passengers:

Are you eligible for Medi-Cal and enrolled in a Medi-Cal Managed Care Program?

Due to a recent change in the Medi-Cal transportation program, did you know that you may be eligible to receive **free** transportation services with no out of pocket costs? That is, instead of using MTS Access and paying the Access fare (minimum \$4.50 each way), you may be able to schedule and receive your transportation through your Managed Care Provider (MCP) **at no cost to you**. Trips through your MCP may even be an individualized trip instead of the shared ride trip on Access.

If you are a Medi-Cal recipient, we encourage you to contact your MCP to see if you qualify for this alternative transportation service. For your convenience, below we have included the MCP names and contact numbers for transportation services from these MCPs. For additional information or questions, please contact your MCP provider. Of course, MTS' Access staff is also available to assist you, at 619-238-0100.

If you prefer to continue to use Access service or are not enrolled in Medi-Cal, we look forward to continuing to serve you.
